

Testimonials

Dr. Doug Magenheim: *"With every referral, whether a small laceration or an automobile accident evaluation, the **MED+** Staff have been thorough, complete and comforting in their care. Why would anyone with a non-life threatening urgent need not want to be seen at **MED+** rather than an overcrowded emergency room? You have made our patients feel as comfortable and "cared for" as we do. Thanks for making My Doctor's patients feel as much a part of your healthcare family as we do!"*

Dr. Mike Schmerler: *"I trust **MED+** with the care of my Mom and Dad."*

Dr. Tim Kremchek: *"**MED+** provides fast, excellent care with immediate follow-up for our athletes."*
