

July 2006

Dear MED+ Urgent Care,

My experience at MED+ Urgent Care was so wonderful. The staff was friendly and helpful, the doctor was thorough and genuinely concerned for my well being. I received excellent medical care as well as an amazingly short wait time in a clean, comfortable environment. I could even get my prescription filled without leaving the office! After experiencing MED+, I would never go back to waiting hours in an emergency room or dealing with the frustration of trying to get an appointment with my primary care for those “urgent” medical issues that come up. MED+ provides the best patient care available — I wouldn’t go anywhere else!

Thanks,
Tina
